OUR STORY

The **iconic concert venue of Dürer Kert** opened its doors in June, 2008 in Zugló and thanks to its conscious community building, shortly it became the **largest underground entertainment venue** in Budapest.

2021 marks the beginning of a **new chapter** in Dürer's story, as it had to redefine the same values at the Danube banks with a new appearance and with more opportunities. This new cultural meeting point is not simply for the concert-goers, **everyone could find entertainment** due to its location's features: you can play foosball, table tennis, enjoy bbq and cauldron cooking, relax in a hammock or on a bean bag while watching a football match, but you can also run into a beer festival or artisan market at 1 Öböl Street!

Furthermore, upon arriving at the building, the visitors find themselves in a real 'nest' of all art, so even during the colder seasons, you can count on Dürer Kert as a reliable point when it's time to recharge. Located on the ground floor, the **concert units called the Small and Main Halls** welcome different artistic productions with **outstanding light and sound technology** (even on a European level), giving space to all styles and needs.

Arriving upstairs, we meet the **Lounge Bar**, which functions as a more neutral zone due to its separated location, and is therefore meant to serve the relatively calmer circles with its constantly changing exhibitions and performances in addition to the other music-focused rooms.
